About the CMP and CPRPFS

The Corporation for the Promotion of Rifle Practice (CPRPRS) was established by an Act of Congress in 1996 to conduct the Civilian Marksmanship Program that was formerly administered by the U. S. Army Office of the Director of Civilian Marksmanship (ODCM). The CPRPFS is a federally chartered, tax-exempt, not-for-profit 501 (c) (3) corporation that derives its mission from public law (Title 36 USC, §40701-40733).

The CMP promotes firearms safety training and rifle practice for all qualified U.S. citizens with a special emphasis on youth. The CMP delivers its programs through a network of affiliated shooting clubs and associations and through cooperative agreements with national shooting sports and youth-serving organizations.

Federal legislation approved by the U.S. Congress and President Theodore Roosevelt created the National Board for the Promotion of Rifle Practice in 1903 to foster improved marksmanship skills among military personnel and civilians. The original CMP purpose was to provide U. S. citizens with opportunities to learn and practice marksmanship so they would be skilled marksmen if later called on to serve in the Armed Services. This government supported marksmanship program came to be known as the Civilian Marksmanship Program. Over the years, the CMP's emphasis shifted so that today it focuses on youth development through marksmanship.

The National Matches, Excellence-In-Competition Matches and other competition programs have been important components of the CMP legacy since the early 1900s. The CMP promotes these competitions as important ways to test and celebrate the marksmanship skills of U. S. citizens. They are also a vital means of fostering the development of shooting sports leaders who can instruct youth in target shooting and promote the growth of marksmanship activities among U. S. citizens.

Introduction to CMP Competition Rules

This 2007 11th Edition of the ***CMP Competition Rules*** governs CMP National Trophy Rifle and Pistol Matches, Excellence-In-Competition (EIC) matches and other CMP-sanctioned competition programs. These rules remain in effect from the date they are issued until they are replaced by the next edition of the rules.

Authority. The CMP governs and sanctions competition events in accordance with Title 36, UCS, § 40701-40733. The authority “to conduct competitions in the use of firearms and to award trophies, prizes, badges, and other insignia to competitors” is one of the “functions” of the Corporation for the Promotion of Rifle Practice and Firearm Safety. Specific authority to conduct the National Matches is given in §40725.

History of the CMP Rules. The first edition of the ***CMP Competition Rules*** was a rewrite of Army Regulation 920-30, which governed the National Trophy Matches through 1996. This is the 10th edition of the ***CMP Competition Rules***. Substantive rule changes from the 10th Edition and any new rules are underlined so that they can be readily identified.

CMP as National Governing Body. The CMP is the national governing body for Service Rifle, Service Pistol, “As-Issued” Military Rifle (Garand, Springfield, Vintage Military Rifle, M1 Carbine), “As-Issued” Military Pistol (M9) and Rimfire Sporter Rifle competitions in the United States. It fulfills this responsibility by promulgating rules and sanctioning competitions for these shooting events.

Applicability. ***CMP Competition Rules*** govern the National Trophy Rifle and Pistol Matches, CMP EIC matches and CMP-sanctioned As-Issued Military Rifle and Pistol Matches as well as any other competitions established or sanctioned by the CMP.

Interpretation and Modification. To obtain a clarification or interpretation of any CMP rule, contact the CMP Programs Staff at CMP North, Camp Perry, Ohio. Recommendations to

improve these rules also are welcome. The Programs Committee of the CPRPFS Board of Directors has the sole authority to modify the ***CMP Competition Rules***.

Web Site for CMP Competitions. The main CMP web site at <http://www.odcmp.com> has information pages for all CMP competition programs as well as links to the latest copies of rules, match programs and program announcements for CMP competitions. From the CMP home page, click on “Competitions” and then select the item(s) you want.

Follow CMP Competitions on the Internet. The CMP pioneered in using the Internet to promote and administer competitions and to post live results for competitors and the public during competitions. The CMP Competition Tracker system was first used during the 2003 National Matches. Competition Tracker can be viewed by any shooter or match official. From the CMP home page, click on “Competitions,” then on “Competition Tracker.” You can also open the Competition Tracker home page by going to <http://clubs.odcmp.com>. From there, you can check “Upcoming Matches and Events,” or “Competition Results” for any listed match just as soon as they are entered in the system. This site also displays a comprehensive list of “Current Distinguished Shooters” and the “Top EIC Scores.” Competitors can use Competition Tracker to enter CMP National Matches events on-line.

Where to Obtain Rules. ***CMP Competition Rules*** are posted on the CMP web site at <http://www.odcmp.com/Competitions/Rulebook.pdf> and may be downloaded from there. Printed copies of the rules are available at a cost of \$3.00 each. Contact:

Small Arms Firing Schools teach safe firearms handling and provide marksmanship instruction with service pistols and rifles. A certificate is issued to everyone who successfully completes the school.

The Competition Tracker home page can directly be accessed at <http://clubs.odcmp.com>. Entry also may be made by completing printed entry forms and sending them to the CMP. Entry fees must be paid when entries are submitted. Entries accompanied by appropriate entry fees will be recorded and processed in the order received by the CMP. If range capacity for an event is reached, subsequent entries will be placed on a waiting list with waitlist priority determined by the date and time the entry was received and entry fees were paid. Note: Entries submitted on-line, electronically are recorded at the time of submission if entry fees are paid by credit card; entries sent by mail are recorded when the entry form and fees are received and processed at CMP.

1.10 Cancellations

Since CMP National Matches events may be filled to capacity with waiting lists, it is important that any competitor who must cancel an entry do so as soon as possible. There is a penalty for late cancellations and no-shows because they deprive other competitors of an opportunity to participate in matches that are filled to capacity. Cancellation requests will be processed as follows:

- (1) Cancellations received 30 days or more in advance of the first event entered receive a full refund of all fees paid.
- (2) Cancellations received between 29 days and one day prior to the first event entered receive a 50% refund of all fees paid.
- (3) No shows on the day of the match or cancellation requests received on the day of the match or after the match receive no refund unless the cancellation is caused by bereavement, a medical emergency or CMP error.

1.12 Additional Information

The National Matches programs published and distributed by the CMP and NRA provide additional details on the Matches. If there is a conflict between the CMP Competition Rules and the National Matches Program regarding the conduct of any CMP competitions described in Rules 1.6.1 and 1.6.2, the CMP Competition Rules shall prevail.

2.0 Excellence-In-Competition Matches

2.1 Purpose

Excellence-In-Competition (EIC) matches are competitions where civilian and military service rifle and pistol competitors can earn EIC credit points that count towards the awarding of Distinguished Rifleman and Distinguished Pistol Shot Badges. An annual series of CMP-sponsored and CMP-sanctioned EIC matches are conducted throughout the United States. The top Non-Distinguished competitors in each EIC match earn EIC credit points (see Rule 10.2).

2.2 National Trophy Individual Matches

The National Trophy Individual Pistol and Rifle Matches that are held annually during the National Matches are EIC matches.

2.3 Military EIC Matches

The U. S. Army, U. S. Air Force, U. S. Navy, U. S. Marine Corps and U. S. Coast Guard each prescribe regulations governing the conduct of military EIC matches and the awarding of Distinguished Rifleman and Distinguished Pistol Shot Badges for members of the military services.

2.4 Other EIC Matches

Other EIC Matches include EIC matches conducted by the military services, Special EIC Matches conducted by the CMP (see Rules 9.6, 9.7 and 9.8) and CMP-sanctioned EIC matches conducted by approved sponsoring organizations. The CMP must approve and sanction all EIC matches not conducted by the military services or CMP prior to their being conducted. CMP-affiliated state associations, clubs and other organizations may apply to the CMP to conduct EIC matches in conjunction with regional, state or other competitions or as a separate competition. Only one EIC match may be scheduled to take place in conjunction with a state or regional championship or during one series of competition events. EIC matches may be conducted in the United States or U. S. territories or at U. S. military installations in other countries. Match sponsors that wish to conduct EIC matches must apply to the CMP for authorization.

2.5 EIC Match Locations and Dates

EIC rifle matches must be scheduled and completed in one day and must be sched-

uled as separate EIC matches or courses of fire that are not combined with any other competition events. Except for schedule or course of fire changes made in accordance with Rule 5.1.4, any deviation from this requirement must be approved in advance by the DCM and explained in the Match Program [Rule 5.1.3]. Information regarding the location and dates of approved EIC matches is published on the CMP web site at <http://clubs.odcmp.com/matches>.

2.6 EIC Match Program

Each CMP-sanctioned EIC match must consist of a National Match Course fired as prescribed in the CMP Competition Rules (Rule 7.6 or Rule 8.8). Any unauthorized deviation from this rule that is not approved by the DCM in accordance with Rule 5.1.4 will be cause for disallowing the scores fired in that match.

2.7 Entry Fees

Each competitor in an EIC match, regardless of Non-Distinguished or Distinguished status, must pay a fee of \$10.00 that must be remitted to the CMP after the match. These fees partially pay the costs of administering EIC matches and Distinguished Badge awards program. The match sponsor may charge an additional fee to cover expenses necessary to conduct the EIC match.

2.8 Junior Pistol Events

Sponsors of CMP-sanctioned pistol EIC matches may, at their option, allow junior competitors to fire .22 caliber standard pistols (Rule 7.4.3) in conjunction with EIC pistol matches. Juniors who fire the .22 caliber standard pistol are not eligible to earn EIC credit points, but match sponsors may provide special awards for juniors who fire these pistols. Match sponsors are not required to remit the \$10.00 EIC entry fee to the CMP for juniors who fire the .22 caliber standard pistol.

2.9 Entries in EIC Matches

Entries in all CMP-sanctioned EIC matches must be made through the EIC match sponsor and not the CMP.

2.10 EIC Match Reporting

EIC match sponsors must forward a match report, scorecards and CMP fees for all competitors who fire in EIC matches to the CMP within five (5) days following the completion of the competition. Reports, scorecards and fees not submitted within 30 days will invalidate the EIC match. The CMP will determine EIC credit point winners and post scores for each EIC match on the CMP Competitor Tracker web site as soon as possible after scorecards are received from EIC match sponsors.

3.0 CMP Regional Games and Other CMP Sanctioned Matches

3.1 Purpose

The CMP conducts Regional CMP Games Matches and sanctions affiliated organizations to sponsor other rifle and pistol matches that offer CMP Games events to promote target practice and competition by as many adults and youth as possible. These matches generally are less formal than traditional target competitions, are restricted to equipment that is simpler and less costly and have courses of fire that can be completed by greater numbers of competitors.

3.2 Regional CMP Games

The CMP may conduct a limited number of Regional CMP Games to offer major

competitions in CMP Games events to competitors in all areas of the U. S. The CMP currently conducts the Eastern CMP Games at Camp Butner, North Carolina and the Western CMP Games at Camp Pendleton, California as regional CMP Games competitions. Events on the Regional CMP Games program are the John C. Garand Match, Springfield Rifle Match, Vintage Military Rifle Match, M1 Carbine Match and As-Issued M1 Garand Special EIC Match.

3.3 CMP Games Events

The CMP sanctions affiliated clubs and state associations to sponsor and conduct the following events as club or state level matches:

- (3) Vintage Military Rifle Match
- (4) M1 Carbine Match

3.3.2 Other Matches

- (1) Rimfire Sporter Match
- (2) Standard Smallbore Pistol

3.4 CMP Sanctioned Match Authorization

CMP affiliated clubs or organizations that wish to conduct CMP-sanctioned matches in the United States, U. S. territories or at U. S. military installations in other countries must apply to the CMP Competitions Department for authorization. The CMP must approve all CMP-sanctioned matches prior to their being conducted.

3.5 Sanctioned Match Locations and Dates

Information regarding the location and dates of CMP sanctioned matches is posted on the CMP web site at <http://clubs.odcmp.com/matches>.

3.6 Sanctioned Match Program

Each CMP sanctioned match shall consist of a course of fire that is prescribed and conducted according to the CMP Competition Rules (see Rule 9.0 and for the Rimfire Sporter Match, the CMP Guide to Rimfire Sporter).

3.7 Entry Fees

A sanctioning fee of \$20.00 must accompany each application to conduct a CMP sanctioned match. There are no other fees for CMP sanctioned matches. There are no individual membership requirements for participation in these matches. The local sponsor may charge individual entry fees sufficient to cover expenses necessary to conduct the match.

3.8 CMP Sanctioned Match Support Services

The CMP affiliated organizations that sponsor sanctioned CMP Games matches receive the following support services from CMP:

- (1) The match date, location and contact information are posted on the CMP Upcoming Events listing at <http://clubs.odcmp.com/matches>.
- (2) Match sponsors can order .30-06 and .22 rimfire ammunition from the CMP at special sanctioned match prices.
- (3) Scorecards for recording competitor scores.
- (4) Certificates of match completion that can be completed by match sponsors and issued to participants after the match are available upon request prior to the match in quantities required.
- (5) Gold, Silver or Bronze Shooter Achievement Award Pins for John C. Ga-

rand, Springfield, Vintage Military Rifle, M1 Carbine and Rimfire Sporter Matches may be ordered from the CMP at a cost of \$1.00 each. These pins may be awarded or sold to competitors who fire gold, silver or bronze achievement award cut-scores (see Rule 9.0 and for the Rimfire Sporter Match, the CMP Guide to Rimfire Sporter).

3.9 Entries

Entries in all CMP-sanctioned matches must be made through the EIC match sponsor and not the CMP.

3.10 CMP-Sanctioned Match Reporting

Sponsors of CMP-sanctioned matches must submit a CMP Sanctioned Match Report and scorecards for all competitors to the CMP within seven days following the match. Note: There no longer is a requirement to submit a bulletin to CMP.

4.0 Eligibility Requirements and Categories

4.1 General Eligibility

All CMP-sponsored or CMP-sanctioned matches are open to any individual or team that complies with these eligibility requirements. U. S. citizenship is not required to participate. 4.2 Eligibility Affidavit Required

Before an individual is permitted to participate in any CMP sanctioned competition, the sponsoring club or the CMP Competitions Department shall have on file a notarized affidavit from that individual certifying that he/she:

- (2) Is not a member of any organization that advocates the violent overthrow of the United States Government.

4.3 Liability Agreement Required

Before an individual is permitted to participate in any CMP sanctioned competition, the sponsoring club or the CMP Competitions Department shall have on file a signed liability agreement stating that he/she:

- (1) Shall be bound by CMP Competition Rules,

- (3) Shall indemnify and hold harmless the CMP and any organization sponsoring or supporting the sanctioned competition from any claim of a third party arising from any negligent or wrongful conduct.

4.4 Age Limits

Any one who participates in a CMP-sponsored or sanctioned event must be capable of safely handling the rifle or pistol used in that event and of safely completing the course of fire for that event. The following age limits are established to assure that participants in CMP-sponsored or sanctioned competitions are capable of handling their firearms safely.

4.4.1 Pistol National Trophy and EIC Matches

CMP Pistol National Trophy and Excellence-In-Competition Matches are open to service competitors and civilians 16 years of age or older.

4.4.2 Pistol Small Arms Firing School

The Pistol SAFS is open to service members and civilians 14 years of age or older.

4.4.3 Rifle National Trophy and EIC Matches

The Rifle National Trophy and EIC matches, including the Garand, Springfield, Vintage Military Rifle and M1 Carbine Matches, are open to service competitors and civilians 14 years of age or older.

The CMP or sanctioned match sponsors may waive the age requirement upon presentation of evidence that the applicant has successfully competed in other shooting competitions or can provide satisfactory proof of having demonstrated the ability to safely handle the pistol or rifle to be used in that event.

4.5 Shooters with Medical Conditions

Shooters with medical or physical conditions, whether temporary or permanent, that limit but do not prevent them from safely completing established courses of fire may be eligible to compete in CMP conducted or sanctioned competitions with special authorizations. Special authorizations for shooters with such medical or physical conditions that are approved by the DCM or issued by the NRA in accordance with NRA Rules 13.1 and 13.2 will be accepted. Special authorizations are intended to make it possible for competitors with medical or physical conditions to compete with other competitors under relatively equal conditions that do not give them any special advantages over other competitors. Shooters with medical or physical conditions should contact the CMP Competitions Department or NRA Competitions Division for information about special authorizations. Shooters with approved special authorizations are expected, in accordance with Rule 5.3, to fulfill all competitor responsibilities including scoring and pulling targets. Shooters with approved special authorizations may provide substitute target pullers for rifle events if they are unable to pull targets.

4.6 Competitor Categories

Competitors may register and participate in one or more of the following categories in accordance with these rules. Competitor categories defined in this rule apply in all National Trophy Matches events.

4.9.1 New Shooter Definition

A new shooter is a team firing member who has not previously fired in that particular National Trophy Team Match. The National Trophy Rifle Team Match and the National Trophy Infantry Team Match are separate events, so a competitor may be a new firing member in one and an old firing member in the other.

4.9.2 Active Service, Reserve, and National Guard Teams

The new shooter on an Active Service, Reserve or National Guard team may be a shooter who has fired no more than once as a junior on a Civilian Team. A National Guard shooter who has not competed as a new shooter while firing as a Junior on a Civilian Team (Rule 4.11.3), may compete once as a new shooter on a State National Guard Team and once as a new shooter on a team representing the National Guard-at-large.

4.9.3 Junior Members of Junior Teams

Juniors who fire as members of Junior teams shall not lose their eligibility to compete as new shooters on other teams.

4.9.4 Junior Members of Civilian Teams

Juniors who fire as members of Civilian State Association or Civilian Club teams shall continue to be eligible to compete as new shooters one additional time, as a Junior or an adult, on either a Civilian State Association, Civilian Club, Police, Active Service, Reserve, National Guard or Reserve Component team.

Scores fired by individual members of Out-of-Competition teams shall not be eligible for special National Trophy Match awards that recognize individual shooter's scores in National Trophy Matches.

4.10.3 New Shooter Eligibility

Participation as a firing member of an Out-of-Competition Team does not affect new shooter eligibility under Rule 4.10.

5.0 General Competition Rules

5.1 Applicable Rules

The following rules and official documents govern all matches conducted, sponsored or sanctioned by the CMP. In the event of a conflict, precedence shall be given first to the CMP Competition Rules, then to applicable NRA Rules, then to the Match Program and then to a Match Director's Bulletin.

5.1.1 CMP Competition Rules

The current edition of the **CMP Competition Rules** shall govern all National Trophy Rifle and Pistol Matches, CMP EIC Matches, CMP-sanctioned As-Issued Military Rifle Matches, Rimfire Sporter Matches and any other competitions established or sanctioned by the CMP.

5.1.2 NRA Rules

Applicable NRA Pistol or High Power Rifle Rules apply in all areas that are not covered by **CMP Competition Rules**.

5.1.3 Match Program

The **National Match Program** or the match program issued by an EIC or other sanctioned match sponsor provides additional information regarding the specific conditions of that particular competition. The match program may not change or preclude the application of specific rules in the **CMP Competition Rules** or applicable **NRA Rules**, except as permitted in CMP Rule 5.1.4.

5.1.4 Match Director's Bulletin

Match Director's Bulletins are normally issued to provide additional information regarding competition conditions that was not known when the match program was published. Match Director Bulletins may not change or preclude specific rules in either the **CMP Competition Rules** or **NRA Rules**, except that a Match Director's Bulletin may change a date of firing or a course of fire when necessary to complete a match. Details of any changes made and the rationale for such changes must immediately be reported in writing to the CMP. The DCM must approve these changes for the competition to be considered a valid EIC match.

5.2 Entries

5.2.1 Advance Notice

Advance notice must be provided to eligible and interested competitors for all CMP sanctioned competitions. Such notice can be given by a sanctioned match posting on the CMP web site, the distribution of the match program or notices sent by mail or email.

5.2.2 Match Entries

Individual entries should be made in advance as prescribed in the match program. Late entries may be accepted if range space is available and the additional entries do not unduly interfere with match operations.

5.3 Competitors' Responsibility

Every competitor who participates in a CMP competition must fulfill these responsibilities. Failure to fulfill all of these responsibilities may result in disqualification in accordance with Rule 5.10.1 (2).

5.3.1 Safety

Every competitor must be capable of safely completing the course of fire for

that match and of following all safety rules. If, in the opinion of the range officers and match director, a participant is not able to handle the rifle or pistol safely, that person may be removed from the firing activity.

5.3.2 Knowledge of the rules

Competitors are responsible for knowing and complying with the CMP Competition Rules, applicable NRA Rules, the official match program and any match director bulletins issued for the match.

5.3.3 Scoring

Competitors are responsible for fulfilling scoring duties as assigned.

5.3.4 Target Pulling and Pit Duties

Competitors are responsible for pulling targets or fulfilling pit duties as assigned.

5.4 Coaching

Coaching on the firing line in accordance with these rules is permitted only during team matches and in CMP Games events (see Rules 4.8.3, 8.4.3 (6), 8.5.3 (4), 8.7.3 (3) & 9.1.6).

5.5 Safety Procedures

5.5.1 Empty Chamber Indicators (ECI)

Empty chamber indicators (ECIs) must be placed in all rifles as soon as they are removed from vehicles or cases or storage containers. ECIs must remain in the rifles or pistols at all times, except during preparation periods or while actually firing, in all matches sanctioned by the CMP.

5.5.2 Boxed or Cased Pistols

Pistols must be kept in closed pistol boxes or gun cases. Pistol boxes or cases must remain closed at all times, except during preparation periods or while actually firing, in all matches sanctioned by the CMP.

5.5.3 Carrying of Firearms

The “carrying” of firearms is defined as physically moving firearms to and from the assembly area or firing line of the range. Pistols must be carried in closed pistol boxes or gun cases. Rifles may be carried in closed gun cases or in an uncased condition. As soon as any rifle is removed from its gun case or box, the action must be opened and an ECI inserted. Any firearms carried uncased on a range must have their actions open and ECIs inserted. When competitors are instructed to carry rifles to the firing line, rifles must be grounded on the firing line and may not be handled until the preparation period begins.

5.5.4 Handling of Firearms

The “handling” of firearms is defined as anything which a shooter does to adjust sights, operate the action, shoulder, load, practice loading, insert a clip or magazine or otherwise perform any action which would prepare the shooter to fire the firearm. Until the range officer gives the command to begin the preparation period, competitors must keep their firearms cased or boxed or in a safe condition with:

- (1) Slides or bolts fully open or locked back.
- (2) Chambers empty.
- (3) Magazines removed.
- (4) Empty Chamber Indicators [ECI] inserted in rifles.

5.5.5 Safety During Loading

Firearms may be loaded only when a competitor is on a firing point and only after the range officer gives the command "LOAD." Competitors may not insert loaded magazines or ammunition into the firearm until the command "LOAD" is given.

5.5.6 Safety During Firing

During firing and until firearms are unloaded, competitors must:

- (1) Keep pistols at the raised or ready position or hold them on the bench with the pistol muzzle pointed downrange in the direction of the target.
- (2) Keep rifles pointed either up or downrange with the rifle muzzle pointed in the direction of the target.

5.5.7 Safety After Firing

As soon as a pistol firing series ends, competitors must open the pistol action, remove the magazine and bench the pistol. As soon as a rifle firing series ends, competitors must open the rifle action, remove the magazine (if removable) insert an ECI and ground their rifle. A Range Officer must inspect the benched pistols or grounded rifles to confirm that their actions are open, chambers empty and magazines out. Competitors may move from their positions and remove their firearms and equipment from the firing line in accordance with commands from the Range Officer.

5.6 Designation of Range Areas

Different areas on each range are designated according to the activities that take place in those areas.

5.6.1 Ready Line

Competitors and other personnel must remain on or behind the ready line until their assigned relay is called to the firing line. Only competitors on a relay that has been called to the firing line, competition officials, team officials and others on duty are allowed forward of the ready line, except by permission of a range officer. Firearms may be carried (Rule 5.5.3), but may not be handled (Rule 5.5.4) behind the ready line.

5.6.2 Firing Line

The firing line is the location from which firing takes place. Firing points are specific numbered spaces on the firing line that correspond with numbered targets that are assigned to specific shooters or teams during a match. When firearms are brought to the firing line, they must be boxed, benched or grounded. The handling of firearms on the firing line may not begin until the Range Officer begins the preparation period.

5.7 Scoring and Challenge Procedures

Scoring and challenge procedures shall be conducted according to applicable CMP and NRA Rules. At any time prior to the closing of the posted challenge period for a competition event, competitors or team coaches may request that an error in score posting or calculating scores be corrected. No fee shall be charged for requesting such corrections.

5.8 Firing and Completing a Match

5.8.1 Fire in a Match

Any competitor who fires one or more recorded shots in at least two stages of a match shall be counted as having fired in the match.

5.8.2 Completed Match

A competitor who fires recorded shots in all stages of a match has completed the match. A team has completed a match when all firing-members fire recorded shots in all stages of the match. A match is completed when all competitors have had an opportunity to complete all stages of the match.

5.9 Results Bulletins

Final results bulletins shall list the scores of all competitors and teams in order of ranking or place finish. Bulletins for team matches shall include the names and scores of all firing team members. The final results bulletin for all National Matches and EIC Matches events shall be the electronic results bulletin that is posted on the CMP web site at <http://clubs.odcmp.com/results>. Any CMP-sanctioned match sponsor that timely submits scores to CMP may use the electronic results bulletin that is posted on the CMP web site at <http://clubs.odcmp.com/results> as the final results bulletin.

- (2) Disqualification. A competitor may be disqualified in case of a refusal to respond to a warning or for serious violations. Any decision to disqualify a competitor must be made by at least two officials such as a range officer and chief range officer or range officer and referee. If a team member is disqualified, the team may be disqualified and the scores of other team members may be disqualified from consideration for other awards, depending upon the circumstances of the disqualification. Any competitor or team that is disqualified must be notified of that decision and be given an opportunity to protest.

5.11 Protests and Protest Resolution

5.11.1 Protests

Any shooter or team that is penalized, disciplined or disqualified has the opportunity to protest that decision if they feel the decision was not made in accordance with CMP or NRA rules.

5.11.2 Decisions on Protests

5.12 Suspension from CMP Matches

In the event of a serious violation, additional action may be taken by the CMP Programs Committee to disqualify or suspend a competitor from the National Matches, EIC matches or other CMP-sanctioned matches for such time as it determines, and to deny any current award already won. When a competitor is charged with a serious violation, the DCM shall investigate the charges and all available evidence and shall present a report on this investigation, together with recommendations, to the CMP Programs Committee. Any person who may be suspended must be notified as soon as possible that suspension is being considered. Subsequent to the submission of the DCM report, the Programs Committee shall offer the competitor an opportunity for a hearing on the charges and evidence provided by the DCM investigation. The accused competitor must be given an opportunity to present evidence or contravening arguments before a final decision is made. Subsequent to any hearing on these charges, the Programs Committee shall make a final decision regarding the charges and the suspension or other punishment for the competitor if he/she is determined to be guilty of the charges against him/her. The decision of the Programs Committee regarding suspension shall be final.

Each member of the National Civilian Rifle Team is awarded an Elihu Root gold medal. The team consists of the six highest-scoring individual civilian competitors and the coach and captain of the highest-scoring civilian team in the National Trophy Team Match.

8.5 National Trophy Infantry Team Match

The National Trophy Infantry Team Match is a National Trophy Match conducted during the annual National Matches.

8.5.1 Team Composition

The team consists of a captain, a coach and six members who fire for the team's score.

8.5.2 Course of Fire

The Infantry Team Match Course of Fire (Table 6) is used for each team of six firing members.

- (1) For firing at 600 and 500 yards, a standard 600-yard target is pasted on a standard competitive target frame. The face of the target is reversed to display a solid white background. The Army "E" silhouette target is centered horizontally on this background, with the top of the silhouette 13" below the top of the frame. For firing at 300 and 200 yards, the Army "F" silhouette target is pasted on the face of a standard 200-yard target, with the top of the silhouette positioned at the top of the 8 ring.
- (2) Teams take their positions on the 600-yard firing line as directed by team officials. Only the captain, coach, and firing members are permitted on the line. A three-minute preparation period is given at the 600-yard firing line only. After the preparation period ends, the command "Load and be ready" is given and the targets are exposed between 10 seconds and no later than 40 seconds after this command. Shooters may start firing when targets appear. Between stages, each team moves forward abreast. Rifles must be unloaded, magazines removed and bolts opened, with muzzles elevated and pointed down range. The firing procedures at each range are the same as those at 600 yards. Each relay must complete the match before the next relay is called.

Infantry Team Match Course of Fire (Table 6)

Stage	Distance	Firing Position	Time Limit
First	600 yds.	Prone	50 sec.
Second	500 yds.	Prone, Sitting or Kneeling	50 sec.
Third	300 yds.	Sitting or Kneeling	50 sec.
Fourth	200 yds.	Standing	50 sec.

8.5.3 Competition Conditions

- (1) Slings. A sling may be used for support in all positions.
- (2) Ammunition. Each team is permitted a total of 384 rounds of ammunition. The team captain allocates the ammunition among stages, divides it among the firing members and decides the number of rounds to be loaded in the clips or magazines.
- (3) Targets. Each team is assigned a block of eight adjoining targets. Gaps in the target line separate one team's targets from those of another.

- (4) Coaching. During the Infantry Team Match, both the team captain and the team coach may coach and talk directly with the shooters and they may touch the shooters' rifles.
- (5) Malfunctions. No alibis are accepted for misfires, disabled firearms or other failures of range or team equipment.
- (6) Score Recording. An assistant range officer is assigned to each team to enforce safety regulations and record the team's scores. A designated team representative (verifier) may accompany this officer down range to verify the score.

8.5.4 Scoring

- (1) All scores are recorded on the firing line at the end of each stage. Hits outside the silhouettes are not scored or marked.
- (2) Hits on the silhouettes count 4 points at 600 yards, 3 points at 500 yards, 2 points at 300 yards and 1 point at 200 yards.
- (3) A bonus for distribution is calculated at each range. The bonus is determined by counting the number of silhouette targets that contain six or more hits each. The number of targets with six or more hits is squared and that result is added to the total hit score for that range to produce the total score for that range.
- (4) Ties are broken by the highest team score at the longest range. When a tie cannot be broken this way, the highest team score at the next longest range is used, and so on.

8.5.5 Telescopes and Field Glasses

In the National Trophy Infantry Team Match, the team captain and coach are permitted to use binoculars that do not exceed 10 X 50 in power and objective lens diameter. Telescopes may only be used behind the ready line and before the preparation period starts. Telescopes and field glasses may be used as follows:

- (1) The team captain and coach may use a telescope behind the assembly line for the purpose of reading the wind before the start of their team's relay. These telescopes may not be used for coaching or reading wind after the preparation period starts.
- (2) After the preparation period starts, the captain and coach may use binoculars that do not exceed 10 X 50 in power and objective lens diameter.
- (3) The assistant range officer or verifier may carry one telescope downrange and may use it only to check and verify scores.
- (4) Telescopes taken downrange must be turned parallel to the firing line during the time when targets are exposed and may be turned towards the targets only during scoring.

8.7.3 Competition Conditions

- (1) Pair Firing. Pair firing must be used in the slow fire stages of the Hearst Doubles Rifle Team Match. In pair firing, two firers are assigned to a single target and fire alternating shots, with the competitor on the right firing first. A shot fired out of turn is scored as a miss. Each two-person

team has 23 minutes to fire the 200-yard standing and 600-yard prone stages of this event. 300-yard rapid-fire stages will be fired separately in the order designated by each team.

- (2) Firing Procedures and Squadding. Each team will fire together on one target. Three teams will be squadded on each target. The teams will be squadded so that one team fires, one team pulls targets and one team scores and assists in conducting firing.
- (3) Coaching. Hearst Doubles teams may not have non-firing coaches with them on the firing line, but team members may coach each other during the three stages of the match.

8.7.4 Team Awards

The two-person team with the highest total score in the Hearst Doubles Match receives the William Randolph Hearst Trophy.

Each competitor's lowest 10-shot score in the two matches will be dropped before 10-shot averages are calculated. The Hearst Doubles handicap score for each team member will be three times each competitor's handicap.
- (2) Handicapped Results. A separate results list showing all two-person teams in this event ranked on the basis of their total score plus the Hearst Doubles handicap score for each team member.
- (3) Hearst Doubles Handicap Awards. Awards will also be given in the Hearst Doubles Match according final rankings of handicapped results.

8.8 Excellence-in-Competition Rifle Matches

9.0 CMP Games Events and Special EIC Matches

9.1 General Competition Conditions

9.1.1 CMP Games Events

The CMP Games Matches program offers competitions with “as-issued” military rifles or pistols over courses of fire that make these matches accessible to large numbers of target shooters regardless of their level of experience and skill. CMP Games events approved for the National Matches program or for sanctioned club matches are:

- (1) John C. Garand Match
- (2) Springfield Rifle Match
- (3) Vintage Military Rifle Match
- (4) M1 Carbine Match
- (5) Rimfire Sporter Match (Note: Rimfire Sporter rules are printed in a separate publication, ***CMP Guide to Rimfire Sporter***)

9.1.2 CMP Special EIC Matches

CMP Special EIC Matches are events where “as-issued” U. S. military rifles or pistols are fired in EIC matches where competitors who have previously earned no EIC points can earn “introductory” four-point EIC credits. Competitors may earn only one four-point EIC credit in pistol and one four-point EIC credit in rifle. Special EIC Matches may only be conducted during the National Matches or regional CMP Games that are sponsored by the CMP. The objective of Special EIC Matches is to introduce new competitors to service rifle and pistol competition shooting and to encourage them to actively pursue the earning of Distinguished Rifleman or Distinguished Pistol Shot Badges. Special EIC Matches are:

- (1) M16 Rifle EIC Match
- (2) As-Issued M1 Garand EIC Match
- (3) M9 Pistol EIC Match

9.1.3 Ammunition

Match sponsors may issue ammunition or permit competitors to use their own ammunition. If the match sponsor issues ammunition, all competitors must use the issued ammunition; they may not use other ammunition.

9.1.4 Spotting Scopes

Competitors may use spotting scopes for shooting or scoring. Scopes do not need to be turned away from the target during the rapid-fire stage.

9.1.5 Equipment for Rifle Events

Cloth, canvas or leather shooting jackets may be used. Standard military-issue web or leather slings or slings of this same type are permitted. Shooting gloves or mitts and ground cloths or shooting mats may be used.

9.1.6 Individual Coaching

Coaching is permitted and experienced shooters are encouraged to coach or assist new shooters. Scorers or other competitors who are not firing may coach competitors who are firing.

9.1.7 Target Assignments

Whenever possible, match sponsors should arrange competitor squadding so that experienced shooters and new shooters are squadded together on the same firing point. Experienced shooters can then coach and assist new shooters and help to assure compliance with all safety requirements. Squadding in these events does not have to be done on a random basis; competitors may request assignments to specific relays or groups of relays. Individual firing point assignments normally are issued on the range immediately prior to the start of firing.

9.1.8 Sighting Shots

Sighting shots, as specified in the course of fire, may be fired by each competitor in CMP Games and Special EIC Matches at the beginning of each event. Sighting shots may be fired in any position, with or without a support. Competitors may fire fewer than the specified number of sighting shots if they notify their scorers that they are starting record shots. No artificial support may be used during the firing of record shots.

9.1.9 Standing Prior to Rapid Fire Stages

When the preparation period prior to a rapid-fire stage ends, shooters are commanded to stand. All competitors are required to stand and begin each rapid-fire stage from the standing position, unless they have a physical condition or disability that prevents them from moving from standing to the firing position safely. Those shooters may request permission from the Range Officer to begin rapid-fire stages in the firing position. Shooters who do not stand must load on command. They may not shoulder the rifle until the firing time begins (targets rise) and they may not fire a shot until after a shooter who was standing fires a shot.

9.1.10 Loading During Rapid Fire Stages

Special attention must be paid to safely and properly loading and reloading rifles during rapid-fire stages. These reloading procedures must be followed in CMP Games events:

- (1) M1 Garand. After shooters stand and are given the command LOAD, they must first engage the safety, then load a clip and two rounds, with the bolt being allowed to close on one of those rounds. After the firing time begins (targets rise), shooters must get into position, disengage the safety, fire two rounds, reload with a full clip of eight rounds, and complete the series within the time limit.
- (2) Bolt Action Rifles. After shooters stand and are given the command LOAD, they must load five rounds and leave the bolt open (do not chamber a round). After the firing time begins (targets rise), shooters must get into position, close the bolt to chamber the first round, fire five rounds, reload five rounds, and complete the series within the time limit.
- (3) M1 Carbine. After shooters stand and are given the command LOAD, they must close the bolt on an empty chamber and insert a magazine with five rounds (do not chamber a round). After the firing time begins, shooters must get into position, open and close the bolt to chamber the first round, fire five shots, reload a second magazine with five rounds and complete the series within the time limit.

9.1.11 No Alibis or Refires

All CMP Games and Special EIC Matches are no-alibi events. There are no refires for rifle, pistol or ammunition malfunctions. Competitors may attempt to clear malfunctions and continue firing, provided they continue to handle their firearms in a safe manner. The only exception to this no alibi rule is that in the case of a range alibi affecting multiple targets a refire shall be allowed. Match officials also may refire individual range alibis providing this does not require the firing of an additional relay.

9.1.12 Scoring

The following scoring rules apply only in CMP Games and Special EIC Matches.

- (1) Competitors who fire crossfire shots in slow fire stages will be scored a miss for each crossfire shot. If a competitor receives a crossfire shot that cannot be distinguished from a shot the competitor fired, the competitor will receive the score of the highest value shot.
- (2) Competitors who have excessive hits on their targets will receive the scores of the highest value shots on their targets equal to the number of shots they fired. The scorer must count and verify the number of shots fired.
- (3) Competitors who have insufficient hits on their targets during rapid fire stages due to not firing all ten rounds or cross fires will receive the scores of the highest value hits on their targets equal to the number of shots they fired.
- (4) Ties (same score and X-count) will be broken according to the score of the last stage fired, then the next to the last stage, etc.

9.5.1 Course of Fire

The course of fire for the M1 Carbine Match is the M1 Carbine Match Course of Fire (Table 9).

M1 Carbine Match Course of Fire (Table 9)					
Stage	Distance	Type of Fire	Firing Position	Number of Shots	Time Limit
Sighting	100 yds. ¹	Slow ²	Any ³	10 max. ⁴	10 min.
1st	100 yds.	Slow ²	Prone	10	5 min.
2nd	100 yds.	Rapid ⁵	Prone from Standing ⁶	10	60 sec.
3rd	100 yds.	Rapid ⁵	Sitting or Kneeling from Standing ⁶	10	60 sec.
4th	100 yds.	Slow ²	Standing ⁷	10	10 min.

1. The SR-1 highpower rifle target (200 yard SR target reduced for firing at 100 yards) is used for all stages of fire; all firing is done at 100 yards.
2. In all slow fire stages with the M1 Carbine, competitors may load from a magazine. No more than five rounds may be loaded in a single magazine. If the Carbine is taken down from the shoulder between shots, care must be taken to keep the muzzle pointed downrange while resting with a loaded rifle.
3. Sighting shots may be fired in prone or any safe position. A rest or support may be used for sighters, but not in any other position.
4. Competitors may fire a maximum of 10 sighting or practice shots. Competitors may elect to fire fewer than 10 sighting shots.
5. Loading in rapid fire stages is done after competitors stand on their firing points. On the command "LOAD," competitors must close the bolts with the chamber remaining empty and then insert a magazine with five rounds. Competitors may not load a round in the chamber while standing.
6. After competitors have closed their bolts and inserted magazines, the command "START" is given. After this command, competitors may get into the prone or sitting/kneeling position. After they are in the firing position, they must open and close their bolts to load the first round, fire five shots, remove the empty magazine, load the second magazine with five rounds and fire the second five shots.
7. Since starting with five rounds in a magazine is permitted in slow fire series with the M1 Carbine, special care must be taken to control the muzzle when the Carbine is taken down to rest between shots. While doing this, the Carbine should normally be cradled in the arms with the muzzle directed downrange towards the targets.

10.0 Distinguished Badges

10.1 Distinguished Badge Program

Distinguished Badges are the highest individual awards authorized by the U. S. Government for excellence in marksmanship competition. They are awarded by the CMP in accordance with 36USC §40722 [3] and by the respective services in accordance with service regulations. The CMP and the military commands responsible for the awarding of Distinguished Badges coordinate their respective badge regulations and the establishment of a master file of Distinguished Badge winners (see 10.1.3 below).

10.1.1 Military Badge Program Administration

Badge programs for military personnel are administered by the respective services in accordance with applicable service regulations.

10.1.2 Civilian Badge Program Administration

Badge programs for civilians are administered by the CMP. The name of the recipient, the year the badge was earned and the badge serial number are engraved on the badge. Replacement or duplicate Distinguished Rifleman and Distinguished Pistol Shot Badges for civilians and Distinguished International Shooter Badges for all competitors who earned them are available from the CMP at a cost to be established by the DCM. The CMP will maintain a master file of all replacement or duplicate badges issued.

10.1.3 Master Distinguished and EIC Files

The CMP maintains a master file of all civilian and military Distinguished Rifleman, Distinguished Pistol Shot and Distinguished International Shooters Badge winners. This file records the badge number, name of the recipient and date of the award. The CMP also maintains master files of all competitors who earn EIC credit points towards Distinguished designation. These files are posted on the CMP web site at <http://clubs.odcmp.com/>.

10.2 Distinguished Rifleman and Distinguished Pistol Shot Badges

In addition to general CMP eligibility requirements (see Rule 4.0), these eligibility requirements apply for EIC matches only.

10.2.1 EIC Match Eligibility for Military Competitors

The military services restrict the number and type of EIC matches that military shooters may compete in through their regulations. Non-Distinguished military competitors, who according to their service regulations cannot be credited with points earned in the National Matches or CMP-sanctioned EIC Matches, must advise the CMP or EIC match sponsor of this prior to their participation.

10.2.2 EIC Match Eligibility for Non-Distinguished Civilians

The number of EIC matches in which Non-Distinguished Civilians may compete for EIC points is limited. In any calendar year, Non-Distinguished Civilians, in either rifle or pistol, may compete in:

- (1) One National Trophy Individual Match.
- (2) A maximum of three CMP-sanctioned EIC matches. The scores of any

competitor who fires in more than three EIC matches in one calendar year will not be counted in determining EIC credit points.

- (3) A service-sponsored EIC match may be fired and counted in lieu of one of the three CMP-sanctioned EIC matches, if civilian entries are accepted in that match. Civilian shooters who fire in military EIC matches earn the same number of EIC credit points as a service shooter would earn with that same score.
- (4) Civilian or service shooters who do not have any EIC credit points in that event, also may enter and compete in Special EIC Matches (Rules 9.4, 9.5, 9.6) sponsored by the CMP where a maximum of four EIC credit points may be earned. These special introductory EIC matches do not count as one of the three regular CMP-sanctioned EIC matches specified in 10.2.2 (2) above.

10.2.3 EIC Match Eligibility for Distinguished Shooters

Distinguished shooters may compete in as many EIC matches as they wish as long as range space is available. If range space is limited, preference for entries in CMP-sanctioned EIC matches other than the National Trophy Individual Match must be given to Non-Distinguished competitors.

10.2.4 Criteria for Earning Badges

Non-Distinguished Civilians may earn credit points toward Distinguished designation in the following matches:

- (1) National Trophy Individual Pistol and Rifle Matches.
- (2) CMP-sanctioned EIC matches held in conjunction with NRA regional and state championships and specifically approved by the CMP.
- (3) Other CMP-sanctioned EIC matches that are approved by the CMP.
- (4) EIC matches conducted by a branch of the U. S. Armed Forces according to applicable service regulations governing EIC matches. Civilians who place among the top ten percent of the Non-Distinguished competitors in any Service EIC match may, by submitting a request and match results bulletin to CMP Competitions, be awarded points toward Distinguished designation.
- (5) Special EIC Matches sponsored and conducted by the CMP in accordance with these rules. Only one four-point EIC credit may be counted towards either the rifle or pistol Distinguished designation.

10.2.5 Recognition of EIC Match Results

In order for Distinguished credit points earned in a CMP-sanctioned EIC match to be recognized, the match must:

- (1) Comply with CMP Competition Rules.
- (2) Use a National Match Course of Fire (Table 3 or Table 4) or a Special CMP EIC Match Course of Fire (Table 8, Table 10 or Table 11).
- (3) Be one of the eligible EIC matches permitted for that competitor (Rule 10.2.2).
- (4) Have at least six (6) eligible Non-Distinguished competitors who fire recorded shots in at least two stages of the competition (Rule 5.11.1). *Note: 10% of six competitors equals 0.6 legs. 0.6 rounds up to 1.0 in accordance rounding rule 10.2.6 (4).*
- (5) Be completed at all stages. If any stage is not competed due to circumstances beyond the match sponsor's control, the match sponsor must petition the DCM for a waiver in accordance with Rule 5.1.4.

10.2.6 Determining EIC Credit Points

The highest scoring 10 percent of all Non-Distinguished competitors who fire recorded shots in at least two stages of the competition (Rule 5.8.1) in EIC Matches are awarded EIC credit points in accordance with this formula (see Table 12 below):

- (1) Highest one-sixth of top 10 percent: Gold medal or 10 points
- (2) Next highest two-sixths of top 10 percent: Silver medal or eight points
- (3) Remaining three-sixths of top 10 percent: Bronze medal or six points
- (4) In computing the awarding of EIC points, fractions of 0.6 or higher are rounded to the next higher number (For example, for 76 Non-Distinguished competitors there would be 8 medals awarded. $10\% = 7.6$ which rounds up to 8.)
- (5) All Civilian competitors who earn a medal in a National Trophy Individual Match receive ten points.
- (6) All eligible competitors who earn EIC credit points in a Special EIC Match receive four points.
- (7) Former Military. If a service member does not become Distinguished while in the service, the CMP will accept points earned in military EIC Matches as credit points towards civilian Distinguished designation.

The CMP awards the Distinguished Pistol Shot Badge or the Distinguished Rifleman Badge when a Civilian competitor earns 30 or more points with the firearm concerned and has earned at least one eight or ten-point award. Competitors in the Active Service, Reserve and National Guard categories earn credit points towards Distinguished designation and are awarded their badges in accordance with the regulations of their respective service.

must win an individual gold, silver or bronze medal to receive credit points for individual place finishes.

10.3.4 Award of Badge

The CMP will review official results from all eligible competitions where U. S. shooters earn credit points and determine the awarding of credit points. The CMP maintains the official record of shooters who earn credits towards Distinguished International Shooter Badge designation. When a shooter who has not previously earned the badge earns a total of 30 or more points, the CMP will issue the U. S. Distinguished International Shooter Badge to that shooter. The CMP will coordinate the issuance of these badges with USA Shooting.
